RELEVANT EXPERIENCE

I have worked as an Expert Witness for twelve years for the Family Court and completed over two hundred and fifty assessments. For the last year I have worked as an Associate Professor for Richmond, The American University, in London teaching models of psychotherapy to psychology undergraduates. My Doctoral thesis was a research project in helping adopted children with complex behaviour and placement difficulties, and I have worked for twenty years in the Looked After Children Sector writing therapeutic plans. I am author of three books. The first was in 2010 called **How to think about Caring for a Child with Difficult Behaviour** (Watershed Publishing). My second was **Mindful Therapeutic Childcare** published in 2014 by Jessica Kingsley Publishing, and my third book **Mind Kind – Your Child’s Mental Health** focuses on Child Mental Health and was published in April this year.

I am currently working in private practice having completed a one year contract as a Psychologist and Psychotherapist Locum for the NHS CAHMS in Torbay, Devon through the agency Day Webster. I completed this as a Band 7 Psychologist specialising in Eating Disorders (Individual and Family) and Enduring Mental Health problems in children. In addition I am experienced at working with the IAPTUS model for treating anxiety, depression, social phobia, OCD and panic in children. I am fully trained in EMDR and use this to treat trauma in children. I am also fully trained in ADOS Autism Observation Schedule and the Child Attachment Interview. I have twenty three years of experience and work with complex cases involving children, adults and families. I am Director of Joanna North Associates Ltd – a Therapeutic Consultancy engaging in therapeutic work and training (www.joannanorth.co.uk). I also work in private practice with Looked After Children within the Child Protection System. I have a Masters Degree in research in this subject and a Doctorate in Psychotherapy from Middlesex University. I am both a Chartered member and Associate Fellow of the British Psychological Society. I am also a Chartered Scientist, a Psychotherapist, and Senior Accredited member of the British Association of Counselling and Psychotherapy (overseen by the Professional Standards Authority) and my Office is OFSTED registered for work with Fostering and Adoption Support (registered as Outstanding).

I run a clinical caseload, as well as undertaking Report Writing and Assessment of Family Therapy Needs and Attachment Styles for both Adults and Children. I train care staff to support children with complex behavioural difficulty, and clinically supervise teams who work with children in the care system. In 2015 I have opened a Private Mental Health Clinic in Exeter for Children, Adults and Families (www.Exetermentalhealth.co.uk) (click on Mental Health Clinic).
